DevOps Transformation Roadmap

Q1	JAN 6 - MAR 29	Q2	JAN 6 - MAR 29	Q3	JAN 6 - MAR 29	Q4	JAN 6 - MAR 29

Operational Work - Maintenance and management

Documentation & Knowledge base
High Priority

Hiring and Building the Team
Medium Priority

Sync with other Team initiatives
Low Priority — Culture

Cost Optimization
Measurement

Source Code Management
High Priority

Migration to Kubernetes
Medium Priority

Resiliency Testing
High Priority

Sync up with other teams about initiatives

Monitoring and Alerting
Critical — Measurement

Backups Management
Critical

Create Knowledge Sharing Sessions with other Teams
High Priority — Culture — Sharing

Continous interation & continous delivery
Medium Priority — Automation

Secrets Management
High Priority

Awareness & Education sessions
Low Priority — Culture — Sharing

Business Community & Disaster Recovery
Critical

Artifactory Management
Low Priority

Create Knowledge Sharing Sessions with other Teams
High Priority

Documentation &Knowledge base
High Priority

Observability & Metrics
Medium Priority — Measurement

Working on new initiatives & ideas
High Priority

Infrastucture as a code
High Priority — Automation

Automated delivery process
High Priority — Automation

Self Services for Other Teams
High Priority — Medium Priority — Culture — Sharing

Security Compliance and Audits
Critical

Continous Improvements
High Priority
